COMMAND POLICY

POLOICY NUMBER: 6-24	Proponent: AETV-THQ-D	Date: 1 November 2005
SUBJECT: Command Policy Memorandum, Platoon Services		
REFERENCE: a. AR 385-55, Prevention of Motor Vehicles Accidents, dated 12 March 1987 b. AR 700-138, Army Logistics Readiness and Sustainability, dated 16 September 1997 c. DA PAM 738-750, Functional Users Manual for The Army Maintenance Management System (TAMMS), dated 1 August 1994		
PURPOSE: To establish Command policy for Platoon Services		
GENERAL: <ol style="list-style-type: none">1. Vehicle and equipment annual services are a platoon collective training event. As such, they must be properly planned, resourced, and executed IAW unit training schedules. To maximize the efficiency and training effect of platoon services, annual services must be addressed in training guidance and quarterly training briefs and appear in short and long range training calendars in conjunction with service intervals. Platoon leader briefs to Battalion Commander should include all major end items, weapons, special equipment, sets, kits, and outfits, and stand-alone items belonging to the platoon. Also, all platoon SRP packets and deployment records will be reviewed for accuracy during services.2. Units may utilize the Low Usage Service program for equipment that meet the criteria outlined on page 18 in DA Pam 738-750. This program combines all the services intervals with the annual service (a) or the biannual (b) service performed every second year, if the equipment does not exceed a specified miles/kilometers or hours in that year.3. The intent of this policy is to ensure that our equipment is ready and safe if we are called to fight. Deviations are expected based on the type of unit and equipment serviced.4. POC is the Brigade BMO, (DSN) 343-
